LINCOLN PARK PUTS FORTH ITS CLAIMS

Citizens Tell Why Northwest Has Been Favored.

DISCUSS THE TAX QUESTION

the District Have the Right "to Pay Taxes and Growl"-Belleves Tide of Population Is Moving Eastward in the Capital City.

For the purpose of giving another opportunity to those desiring to become charter members of the Lincoln Park Citizens' Association, a special meeting was held last evening at the Chapel of the Nativity, at which thirty-nine new members signed the constitution. The organization now has a total membership of sixty-five, although it has been in exstence but two weeks.

Following the report of the committee and the adoption of amendments to the constitution, a motion was made by George R. Linkins to the effect that the association indorse the plan to change the date of the Presidential inauguration from March 4 to the last Thursday in

This motion was passed as was the or offered by Levi Eiseman relating to the creating of a Central Citizens' Association to consist of representatives from all associations in the city.

The president, D. A. Edwards, spoke of the amount allotted by Congress for lowed by Capt, William M. Potter, who invited attention to the many improvements accomplished by the East Washington Citizens' Association, of which he

M. I. Weller, vice president of the East Washington Citizens' Association, explained the methods of dividing the Congressional appropriations for improving the city, and incidentally remarked than the citizens of the District "had the right to pay taxes and to growl."

The speaker traced the government of the District from its formation to the present day, calling special attention to the "beauties of our present form of gov ernment." He believed the man who pays taxes should have the right to say what is to be done with the money. Mr. Weller declared emphatically in favor of woman's suffrage.

In calling attention to the small amount allotted by the Commissioners for improvements in the eastern section of Washington, Mr. Weller said that all of the Commissioners had come from the northwest, and naturally looked after the

For the same reason the clerks in the departments settled close to their offices. According to the census reports, the tide of population in Washington at present is oving eastward.
